

Fire VASE preserves developmental differences hidden by final outcomes

front loaded: 440.3 km², 17 d

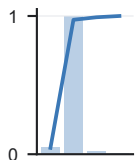

front loaded: 1053.3 km², 11 d

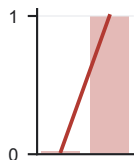

Matched final size, contrasting history

Daily increments become rings;
ordered rings become comparable forms.

late growth: 23.4 km², 5 d

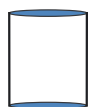

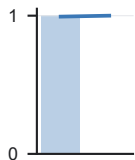

late growth: 20.2 km², 5 d

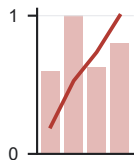

Matched final size, contrasting history

Daily increments become rings;
ordered rings become comparable forms.

persistent: 31.3 km², 5 d

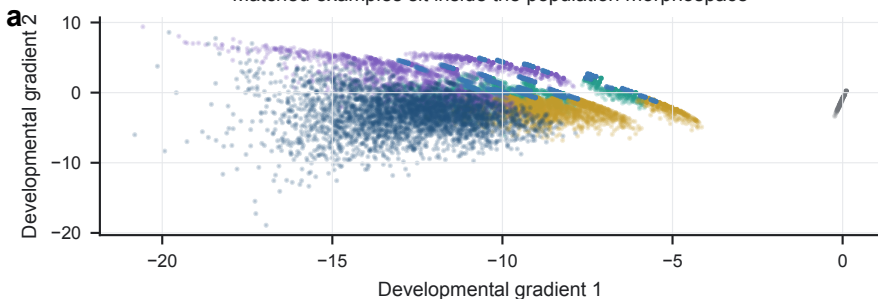

persistent: 41.4 km², 4 d

Matched final size, contrasting history

Daily increments become rings;
ordered rings become comparable forms.

Matched examples sit inside the population morphospace

Axes are not only size or duration
