

Climate is not destiny.

Similar climates can lead to different outcomes, and similar forms can arise under different climate pathways.

1.19 kPa VPD
21.1 C Tmax

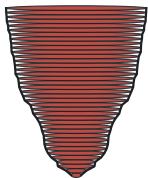

2.08 kPa VPD
30.7 C Tmax

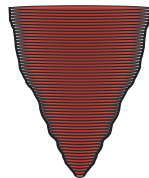

**Similar centroid
climate**

can still produce

1.17 kPa VPD
21.2 C Tmax

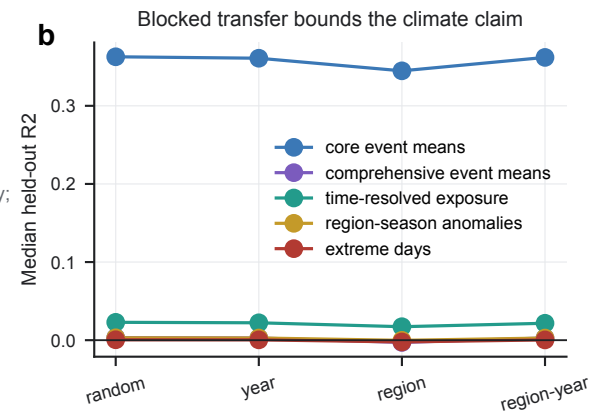

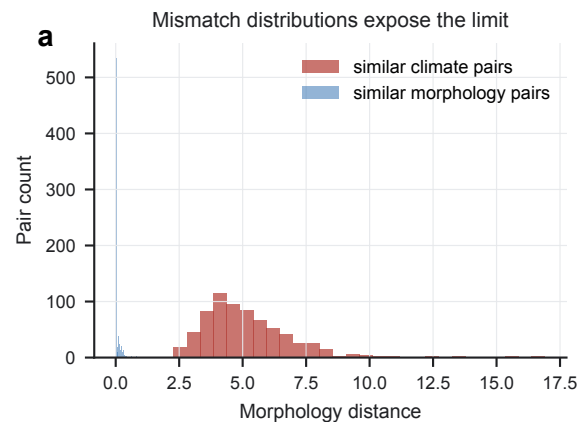

2.05 kPa VPD
30.2 C Tmax

**different VASE
forms**

Climate organizes opportunity;
it does not assign one path.

Takeaway: climate organizes opportunity, but state and landscape context help determine the path a fire takes.
